A white plastic enclosure, likely for a small animal, with a circular ventilation grille in the center of the top lid. The enclosure has a rectangular shape with rounded corners and a small protrusion at the bottom center. The lid is slightly raised, showing the interior of the enclosure. The grille is made of white plastic with a grid pattern. There are several small circular holes around the grille, possibly for ventilation or mounting. The enclosure appears to be made of a durable plastic material.A large, dark gray, rectangular object, possibly a book cover or a folder, shown from a top-down perspective. The object is oriented vertically and has a slightly textured surface. At the bottom, there is a thin, horizontal metallic strip that appears to be part of a binding or a hinge mechanism. The background is plain white.

Technical drawing of a mechanical part, likely a bracket or support. The drawing shows a side profile with a vertical section on the left and a curved section on the right. Dimensions are indicated: 18.6 for the vertical height of the main body and 25.2 for the horizontal length of the base.

MAG-PRO

A black L-shaped bracket or support piece, likely made of plastic or metal, shown against a white background. It has a flat top surface and two perpendicular legs, one of which is slightly angled downwards.
